# Sortier Feeding Systems

**Sortier feeding systems** known for their innovation, flexibility and orientation parts for all types of industrial requirements, Sortier is the manufactures of vibratory bowl feeders in india (Tamil Nadu).

**Sortier bowls** are suitable for feeding components for subsequent operation on special machines in electrical, mechanical, optical bearing, plastics and many other industries.

**Components** are Plastics, Spouts, Rollers, Needle Pins, Glass caps electrical connector, Bearings and Metal sockets, Even oil parts can be feed.

**Sortier** manufacturing 6 model of vibratory bowl feeders, 100, 200, 300, 400, 500 & 600 dia wide variety models are making, Sortier all bowl feeders configured as a complete system featuring sensors and controls systems provider, we innovate feeding techniques on each and every bowls.

**Sortier** has the complete feeding solutions providing your specific needs basis.

**On site - service** our technicians provide on site service of your feeder systems and parts and support, our full time service technicians on call 24 hours to answer your questions and to keep your feeder systems in working order.

**Frequency controllers are analogue/digital:**

**sortier** offers frequency controllers guaranteed for constant voltage and frequency,

- i) Variable voltage regulator sdvc 21.
- ii) Variable frequency sdvc 31L.
- iii) Digital REO VIB MFS 168.
- iv) REO analogue REO VIB 6024.

## Our services are:

- Vibratory bowl
- Linear feeder
- Hopper feeder
- Drive units
- Singling units
- Pick and place units
- Conveyors & Elevators
- Standardized feeding accessories are,
  - i) Electromagnetic coils
  - ii) Vibro mounts
  - iii) Spring plates
  - iv) Controllers digital & Analogue
  - v) Sound encloser/Cover
  - vi) Sensors

# Sortier Feeding Systems

## We Manufacture ;

We build vibratory feeder bowl customized  
To vibratory bowl fit your specifications,  
Type:

- i) Cylindrical
- ii) Conical
- iii) Step Bowl
- iv) 100 To 600 Diameter
- v) FDA Specifications
- vi) Multiple Parts & Lanes.

## **Hopper:**

These are available here augmenting the capacity of vibratory bowl feeder and increasing the manual loading time. Its capacity available here 30 to 50 ltr special (according to requirements)

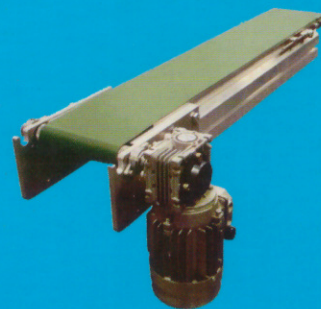

## **Linear feeder:**

**Sortier** manufacturing 4 models of linear feeders its, 200, 300, 400 & 680 (for required extension output from bowl chute linear chutes can be offered depending upon the requirements).

## **Conveyor feeder:**

**Sortier** small part components conveyor feeders find applications in all types of industries, where efficient & speedy movement of material from one workstation to another is to be achieved.

## **Hopper elevators:**

**sortier** offers hopper elevators which can be fed at very low height, it can allow large quantity of loading in the hopper.

## **Bowl coating:**

**Sortier** special Polyurethane & lining coating are reduce the wear and tear, reduce the noise and damage to components, coating is selected for according to the application.
